WHEREAS, the Centers for Disease Control and Prevention report that every year, over 36,000 Americans are killed in acts of gun violence and approximately 100,000 more are shot and wounded;

WHEREAS, according to the Centers for Disease Control and Prevention and data collected by the Organization for Economic Cooperation and Development, by early February of each year, more Americans are killed with guns than are killed in our peer countries in an entire calendar year;

Hey Leon

Thank you for responding to my email. I am a resident in Jax Bch but my family's beach house is on Oleander in Neptune Beach that is why I want to have this walkover built. I have my mother who is 83 and also parents with children who are having difficulty getting to the beach with the current walkover. I would love to come to the January 6th council meeting with other neighbors if that would help. It depends about help on building the walkover since we aren't sure the steps that are required to accomplish this. Paul is able to draw up a design and guide us on how to implement the project if that is allowed. As far as the materials we would need help, he said he could donate some but again not sure what we are able to build. We would love to build before May if possible so it's ready for summer. Please help me to understand the procedure to get this done. I appreciate your patience and look forward to hearing back from you.

Hello Julie,

I think coming to a Council meeting may be a good idea so that you can share your thoughts and ideas. Our next scheduled meeting is Monday Jan. 6th at 6:00 pm. I have a few questions myself, Are you planning on building it or do you need help? Are you having all the material donated? Also we would need to get a permit from FDEP to construct and we would have to build before turtle season if possible.

Thank you,

Leon

Good morning Leon,

I spoke to you several months ago about building a handicap walkover on Oleander Street. I have cc'd Paul Farrell, who owns Farrell Brothers Marine Construction. We are wanting to know what is our next step in moving this forward. His company may be able to donate some of the materials, and the neighbors on the street are willing to donate their time to help build, if this helps to get this thing going:) Please let us know if we need to come to the council meeting.

We appreciate your time and look forward to hearing back from you.
